ORIGIN: USA

The latest addition to Spyderco's family of pink-handled knives is the Native 5 Lightweight. This eye-catching folder offers the same high-performance reliability as our standard Native 5 Lightweight, but with the added benefit of an eye-catching pink handle.

Spyderco's pink-handled knives are much more than a novelty or a feminine fashion statement. These brightly colored versions of some of our most popular lightweight models also provide a constant reminder of the brave women currently battling all forms of cancer and help support them in that fight. Spyderco is very proud to support Guardians of the Ribbon/Pink Heals Tour and the "Cares Enough to Wear Pink" programs by donating a portion of the sales of our pink-handled knives to this amazing organization. Founded in 2007 by retired firefighter Dave Graybill, this incredible charity focuses on providing direct care to women battling all forms of cancer. The Pink Heals Movement, best known for its fleet of pink fire trucks and police cars, tours the U.S. visiting women and children cancer patients, determining their most critical needs, and coordinating local resources to meet those needs. Pink Heals also recruits the support of tax-based services and community leaders to ensure continued support of women battling cancer by the donations staying local to the community it was raised in. Most importantly, Pink Heals applies 100% of all the donations they receive to direct care for the women it serves, providing immediate, tangible support to those who need it most. All the charity's operating expenses are paid for by sales of pink shirts bearing their organizational logo. These shirts are also the foundation of the "Cares Enough to Wear Pink" campaign—a national campaign intended to increase the focus on women as one of the world's most precious resources.

Spyderco is honored to support the Guardians of the Ribbon/Pink Heals Tour and the women it serves. To learn more about its extraordinary programs and other ways you can help support their efforts, please visit www.pinkfiretrucks.org.

EXCLUSIVES

SPYDERCO EXCLUSIVES

A Spyderco Exclusive is a special and highly collectible breed of knife produced for a qualifying wholesale customer or cooperatively between a wholesale customer and Spyderco's Factory Outlet Store. Exclusives are basically variations of our standard models manufactured in a configuration different than what has been previously produced. They may have a special blade steel or finish, a unique handle color, or a combination of distinctive features, but no matter what form they take, they are unique to that customer. The production of Exclusive models is closely controlled and formally contracted with qualifying wholesalers. After the initial production run, those customers reserve the right to reorder Exclusive knives as long as their contract remains in effect. Once contractual obligations have been fulfilled, Spyderco reserves the right to reproduce the item if we choose.

Currently a number of Spyderco wholesalers are offering unique variations of some of our most sought-after models:

Para Military™ 2 with orange G-10 scales and a CTS® XHP PlainEdge blade with a black Diamond Like Carbon (DLC) coating - Available from Cutlery Shoppe at www.cutleryshoppe.com.

Tenacious™ with brown G-10 scales and either a satin-finished or black-oxide-coated 8Cr13MoV blade. PlainEdge versions available now, with CombinationEdge versions coming soon- Available exclusively through Blue Ridge Knives and their dealers. For more information visit www.blueridgeknives.com.

SECONDS SALE

SPYDERCO FACTORY SECONDS SALE!

Spyderco maintains extremely high standards on all our knives and inspects them religiously to ensure that every knife we ship is as good as it can possibly be. Although this process keeps our quality standards high, it also results in a number of knives that are 100% mechanically sound and completely functional, but have a minor aesthetic flaw that keeps them from "making the grade." These knives are identified as "seconds," marked with a small notch on the spine of the blade, and then sold at a fraction of their retail value at Spyderco's annual Factory Seconds Sale.

One of the most eagerly anticipated events in the knife industry, our Seconds Sale has become a pilgrimage for many dedicated Spyderco fans that travel great distances to share in the fun and the bargains. Some die-hard fans even camp out the night before, braving the sometimes harsh Colorado weather to get first dibs on our selection of seconds—and serious bragging rights on their haul after the sale.

This year's Spyderco Seconds Sale will be held on Saturday, November 21 from 8:00 am to 5:00 pm at Spyderco's headquarters, 820 Spyderco Way, Golden, Colorado 80403. You know you want to be there. Start planning now and join the fun!
