2016 MID-YEAR PRODUCT GUIDE

Welcome to Spyderco's 2016 Mid-Year New Product Guide!

At Spyderco, the innovation never stops. Thanks to our relentless product development efforts, we literally introduce new products every month. And with a schedule like that, a once-a-year catalog just isn't enough.

This supplemental product guide is designed to introduce you to all the new products that weren't far enough along to be included in our 2016 catalog, but are now on the horizon to be released in the coming months. As always, we've been busy, and we're confident that our newest knives will include something for everyone.

Thank you for your continued interest in Spyderco and for sharing our passion for reliable high-performance cutting tools.

Advocate™

Veteran competitive cutting champion and custom knifemaker Gayle Bradley shows his tactical side with the Advocate—his first flipper folder. Its full-flat-ground blade is crafted from Bradley's preferred CPM M4 tool steel and boasts both a prominent index-finger flipper and fully functional Trademark Round Hole. The handle features radiused, 3-D-machined solid titanium scales with a unique "orange peel" texture, a high-strength Reeve Integral Lock (R.I.L.) mechanism with a stainless steel interface, open-backed construction, and a reversible hourglass clip capable of left or right-side tip-up carry. It also houses ball-bearing washers on both sides of the pivot to ensure a high-speed, low-drag action.

SKU Number	C214TIP

Rubicon™ 2

7.40in

➤➤➤➤ **C187**CFP2

Rubicon™ 2

Spyderco's second-generation expression of Peter Carey's exquisite Rubicon folder design retains all the salient features of the original, but in a more affordable, everyday-carry format. Its signature blade design is hollow ground from CPM S30V and includes both an integral flipper opener and a fully functional Trademark Round Hole to support all possible one-hand opening options. Full skeletonized titanium liners are the heart of its high-strength LinerLock mechanism and are home to textured carbon fiber/G-10 laminate handle scales

and a flush-finished orange G-10

backspacer. Ball-bearing

washers in the pivot ensure

smooth, frictionless

operation and a

classic hourglass

clip provides

Magnitude™

Based on Peter Carey's acclaimed custom design, the Magnitude is a highly-refined LinerLock folding knife that is equally comfortable with flipper-style openings or the use of Spyderco's Trademark Round Hole™. Hollow ground from CPM S30V, its blade features a long, sweeping cutting edge, a full-thickness spine, and a stylish swedge. Its handle combines full skeletonized titanium liners, 3-D-machined twill carbon fiber scales, a scalloped brown G-10 backspacer, and a custom clip design that offers right-side tip-up carry.

Linking the blade and handle is a distinctive pivot that includes an inlaid brown G-10 accent, machined details, and ball-bearing washers for an ultra-smooth action.

EuroEdge™

Inspired by his extensive research of historical arms, Ed Schempp's EuroEdge pays homage to the fuller [longitudinal groove] that was the secret of the strength and light weight of many of Europe's best swords and daggers. Single edged so it can be safely carried in the pocket, the EuroEdge's CPM S30V blade features a nearly symmetrical grind with a pronounced swedge, highlighted by three machined fullers. This dramatic blade is paired with a stout Swiss-dagger-style handle comprised of full skeletonized stainless steel liners, beautifully contoured G-10 scales, a full G-10 backspacer, and a sturdy LinerLock mechanism.

An exquisite blend of traditional style and modern manufacturing, the EuroEdge is configured for right-side, tip-up clip carry.

SKU Number	C215GP

Ouroboros™

6.88in

»»»»» **C207GP**

Ouroboros™

Named after an ancient Greek symbol depicting a serpent eating its own tail, the Ouroboros is a highly refined folding knife design that packs impressive function into a compact, stylish package. Designed by automotive engineer Paul Alexander, its broad, leaf-shaped blade is full-flat ground from VG-10 stainless steel. It is paired with a beautifully curved handle featuring nested stainless steel liners, a steel backspacer, textured G-10 scales, and a high-strength Compression Lock™ mechanism. The Ouroboros' uniquely ergonomic shape allows the wide blade to serve as a natural guard and makes the knife extremely safe in use. A reversible, deep-pocket wire clip provides ambidextrous tip-up access.

Reinhold Rhino™

5.95in

▶▶▶▶▶▶▶▶▶▶ **C210GP**

Reinhold Rhino™

Designed by Michael Reinhold, the Reinhold Rhino offers impressive strength and cutting performance in a very compact package. Its thoughtfully radiused, ergonomic handle combines textured G-10 scales and nested stainless steel liners to offer a comfortable, hand-filling grip. It's also home to Spyderco's patented Compression Lock™ mechanism, which provides extreme lock strength and easy one-handed operation. The sweeping full-flat-ground CTS® BD1 stainless steel blade packs plenty of edge into its length and cuts with authority far beyond its size. To ensure convenient carry, the Reinhold Rhino

includes a reversible clip that provides ambidextrous tip-up carry and a lined lanyard hole for easy attachment of lanyards and fobs.

Sage™ 5

The Sage Series™ is a family of identically patterned knives that showcases the innovative lock mechanisms that helped define modern folding knife technology. The newest addition to this series, the Sage 5, highlights Spyderco's patented Compression Lock™, which uses one of the handle's stainless steel liners, the stop pin, and an upward-facing ramp on the blade's tang to create an incredibly strong and user-friendly lock mechanism. Nested within textured carbon fiber/G-10 laminate handle scales, the Compression Lock is paired with a full-flat-ground leaf-shaped blade crafted from CPM® S30V® particle metallurgy stainless steel. A Trademark Round Hole™ ensures quick,

positive, one-handed opening and a reversible deep-pocket wire clip provides discreet left or right-side tip-up carry.

SALT SERIES

SpydieChef™

7.78in

»»»»» **C211**TIP

SpydieChef™

A proud member of Spyderco's Salt Series™ of ultra-corrosion-resistant knives, the Spydiechef takes the user-friendly ergonomics of a good chef's knife and translates them into a do-all folder optimized for everyday carry. Based on knifemaker Marcin Slysz' custom design, it features a gracefully curved, full-flat-ground blade crafted from LC200 N—an extremely corrosion-resistant nitrogen-based steel used by NASA for ball bearings. Its easily cleaned, open-backed handle consists of two solid titanium scales, one of which houses a stout Reeve

Integral Lock (R.I.L.) mechanism. A lined lanyard hole and a reversible deep-pocket wire clip support convenient carry and quick tip-up access.

SALT SERIES
Jumpmaster™ 2

9.33in

➤➤➤➤ **FB24**SBK2

Jumpmaster™ 2

The original Spyderco Jumpmaster was developed for use by military jumpmaster personnel as an emergency cutting tool to free “hung” paratroopers. A distinguished member of our Salt Series™ of knives, its 100% rustproof H-1® steel blade and fully serrated SpyderEdge™ not only made short work of military static lines, it also offered the greatest edge retention of any knife we’ve ever made. The Jumpmaster 2 continues that tradition, taking the extreme cutting power of a fully serrated H-1 blade and packing it into a do-everything leaf-shaped profile that eagerly tackles all cutting tasks. Like the original, the Jumpmaster 2 is hollow ground and features a skeletonized full tang capped by Bi-Directional Textured™

fiberglass-reinforced-nylon handle scales. It comes complete with a snap-fit, custom-molded Boltaron® sheath and a versatile G-Clip™ mount that supports a full range of carry positions.

FIXED BLADES

Sustain™

11.5in

FB39GP

Sustain™

Based on custom knifemaker Stuart Ackerman's best-selling "Slither" design, Spyderco's Sustain is a truly formidable fixed-blade knife. Its broad blade is saber ground from premium CPM® 20CV—an advanced particle metallurgy stainless steel renowned for its edge-holding ability and extreme corrosion resistance. An unsharpened swedge on the back of the blade reduces weight and ensures an acute point, while a full tang guarantees optimal structural strength. Contoured, 3-D-machined G-10 handle scales are secured to the tang with concealed pins to offer a clean, extremely comfortable grip and include a generously sized lanyard hole. The Sustain comes complete with a handsome pouch-style leather sheath for convenient belt carry in the field.

SKU Number	FB39GP

FIXED BLADES
Junction™

8.45in

FB38GP

Junction™

Gayle Bradley's Junction is an all-purpose fixed-blade knife that is ideal for hunters, backpackers, and outdoorsmen on the go. Its blade is precision machined from PSF27, a high-performance spray-formed tool steel known for its ultra-fine, homogenous grain structure and superior edge retention properties. The blade's broad profile, full-flat grind, and gracefully curved belly create incredible edge geometry and ensure optimal cutting performance. For maximum control and strength, the Junction features a wide, ergonomic handle and integral guard capped by slim, smooth G-10 scales attached with sturdy tubular rivets. A custom-molded Boltaron®

sheath and versatile G-Clip™ support a wide range of carry options and ensure that the Junction is always ready when you are.

BYRD KNIFE

Starling™ 2

4.40in

»»»»» **BY12GP2**

Starling™ 2

One of the most anticipated additions to Spyderco's economical byrd® line of knives is the Starling 2—a carry-anywhere pocketknife that offers impressive cutting performance in a 1.1-ounce package. The business end of the Starling 2 is a full-flat-ground blade crafted from CTS BD1 stainless steel. Its “comet-shaped” hole allows easy opening and proudly proclaims the knife's membership in the byrd family. The blade is paired with a handle consisting of full stainless steel liners capped with textured G-10 scales. A sturdy back lock mechanism locks the blade securely in the open position and a lanyard hole in the handle allows easy attachment of lanyards and even key chains. A true pocketknife, the Starling 2 does not include a clip.
